Subject: FW: Rush Extra search for 10/023182

please contact me if the information is not clear.  
Thanks  
Tam

May I ask for extra search for this case?

Please search in commercial database, issued patent files, PGPUB and interference:

The fragments of the polynucleotide of SEQ ID NO:1 encoding the peptides of SEQ ID NO:4, 5,6, with size limitation to the size of the corresponding fragments.

***That is first translate SEQ ID NO:1, and identify the fragments of SEQ ID NO:1 corresponding to the encoded peptides of SEQ ID NO:4-6. Then search said polynucleotide fragments with size limitation to the size of the corresponding fragments.***

Thank you.

MINH TAM DAVIS
